

Course Availability

Most courses are available in both an online and custom course format. However, some courses are only available in one format, usually due to specific course requirements.

We upgraded to a new learning management system! An “X” in the Online Class column means that the class has already been moved and is available online. Other classes are being put into the new LMS in rounds:

Round 1 (R1): December 2009

Round 2 (R2): March 2010

Round 3 (R3): June 2010

Round 4 (R4): September 2010

All classes with an R1 in the online column are anticipated to be available through the LMS by December 2009; those with an R2 will be in the LMS by March 2010; and so on. Additional courses will continue to be made available online in the LMS, but their availability dates have yet to be defined.

As classes are continuously being added to the LMS each week, students should ask their EFs if a course with an upcoming availability date is already available.
